

Subpart A—General Information**§ 2903.1 Applicability of regulations.**

(a) The regulations of this part only apply to Biodiesel Fuel Education Program grants awarded under the provisions of section 9004 of the Farm Security and Rural Investment Act of 2002 (FSRIA) (7 U.S.C. 8104) which authorizes the Secretary to award competitive grants to eligible entities to educate governmental and private entities that operate vehicle fleets, other interested entities (as determined by the Secretary), and the public about the benefits of biodiesel fuel use. Eligibility is limited to nonprofit organizations and institutions of higher education (as defined in sec. 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the ability to conduct educational and technical support programs. The Secretary delegated this authority to the Chief Economist, who in turn delegated this authority to the Director of OEPNU.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 2903.2 Purpose of the program.

The Biodiesel Fuel Education Program seeks to familiarize public and private vehicle fleet operators, other interested entities, and the public, with the benefits of biodiesel, a relatively new fuel option in the United States. It will also address concerns previously identified by fleet operators and other potential users of this alternative fuel, including the need to balance the positive environmental, social and human health impacts of biodiesel utilization with the increased per gallon cost to the user. It is the Program's goal to stimulate biodiesel demand and encourage the further development of a biodiesel industry in the United States.

§ 2903.3 Eligibility.

(a) Eligibility is limited to nonprofit organizations and institutions of higher education that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the

ability to conduct educational and technical support programs.

(b) Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project.

§ 2903.4 Indirect costs.

(a) For the Biodiesel Fuel Education Program, applicants should use the current indirect cost rate negotiated with the cognizant Federal negotiating agency. Indirect costs may not exceed the negotiated rate. If no indirect cost rate has been negotiated, a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested.

(b) A proposer may elect not to charge indirect costs and, instead, charge only direct costs to grant funds. Grantees electing this alternative will not be allowed to charge, as direct costs, indirect costs that otherwise would be in the grantee's indirect cost pool under the applicable Office of Management and Budget cost principles. Grantees who request no indirect costs will not be permitted to revise their budgets at a later date to charge indirect costs to grant funds.

§ 2903.5 Matching requirements.

There are no matching funds requirements for the Biodiesel Fuel Education Program and matching resources will not be factored into the review process as evaluation criteria.

Subpart B—Program Description**§ 2903.6 Project types.**

OEPNU intends to award continuation grants to successful Biodiesel Fuel Education Program applicants. A continuation grant is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined project period with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available
